3.2. Our obligations

We will contact You regarding the Proposed Start Date and provide contact details for any queries You may have regarding delivery of the Service. We will use Our reasonable endeavours to ensure that the Service is Ready for Service (RFS) from the Proposed Start Date.

3.3. Restrictions

If You cancel an order, or significantly modify it, e.g. change the Service location, delivery date, Service Type, or number of Users, prior to the relevant Service Start Date or implementation of the relevant Change Request, We reserve the right to claim reasonable costs incurred as a result of cancellation or modification. In addition We will not be obliged to meet the original timescales.

If service implementation cannot proceed due to a customer related issue, e.g. LAN infrastructure issues, no available power sockets, no wall space or access to Site is refused. We will not be obliged to meet the original timescales and an abortive visit charge may be raised.

3.4. Customer Provided Local Area Network (LAN) requirements

Our SmartComms UC Service is a 'real time' application that should be prioritised on Your network, to ensure a high quality experience for Your Users. Prior to placing Your order, We will have helped You to determine whether the network at each of Your Sites meets the requirements for bandwidth (number of concurrent calls supported), latency, jitter and packet loss. More information relating to the minimum requirements can be found in the Customer Network Compliance Statement document.

4. MANAGING THE SERVICE AND OPERATIONAL SUPPORT

4.1. Web management portal

Our intuitive administration and User portal delivers a fully featured self-service experience, allowing You to manage, monitor and make changes to the configuration of Your Service at any time, from anywhere there is an Internet connection. You can also view and download call data by Site, group or single extension level and track performance over time by analysing easily generated Call Log reports.

4.2. Making changes to Your Service

Beyond basic configuration changes that can be made via Your web portal, You can request more substantial changes via an Additional Services Order (ASO). Such changes will need to be agreed by Us and any one-off charges, or changes to monthly recurring charges calculated and notified to You before the implementation process is started.

4.3. Using the Service

The Service combines traditional telephony functionality with more advanced collaboration and mobility features (dependent on licences purchased).

4.4. Service Availability

We will use Our reasonable endeavours to provide Service Availability of 99.999%, 24 hours per day, 365 days per year commencing on each relevant Service Start Date, and to give You advance notice of any Planned Outages which will impact Service Availability

Service Outages attributable to Planned Outages to the Service or service platform and any emergency outages shall not be deemed occurrences of Unavailability for the purposes of this Service Standard.

In all such circumstances, the Service shall be deemed Available.

4.4.1 Planned Outages

Planned Outages may occasionally be necessary for Us to carry out essential maintenance work or network upgrades; these will be kept to a minimum.

Except in an emergency or when circumstances are beyond Our control You will receive at least 5 (five) Working Days' notice of any Planned Outage which will affect the availability of the Services.

4.4.2 Customer and Third Party Attributable Faults

Downtime, failure, faults or outages caused by Customer Responsible Faults, Third Party Attributable Faults, or Force Majeure Events or where section 6 below applies shall also not be included when calculating the Service Availability. In all such circumstances, the Service shall be deemed Available.

- As We shall be dependent upon a third party for any redevelopment of the Software, the plan shall relate to any remedial action that has been identified. This shall be agreed on a per instance basis. The plan shall also include the agreed frequency updates required by You

relating to resolution progress. If a Software fault of this nature exists, Our obligation shall be to formulate an action plan with You, and then execute it within the agreed timetable
