

KINGSTON INTERCONNECTION PRICE LIST	
SECTION 2	TELEPHONY
PART 2	NUMBER PORTABILITY

For terms and conditions applicable to these charges see Schedule 11 of Annex 1: Schedule of Services

2.2.1 KCOM Charges:

2.2.1.1 Per Line set up charge for digital exchange (Note 1)

KCOM CHARGE (Note 2)			
Description	Effective Date	Until	Charge (£)
Fax Based, no Real Time Router	01/04/98	28/02/11	5.52
Fax Based, no Real Time Router	01/03/11		2.49
Electronic data interchange, no Real Time Router	01/04/98	28/02/11	4.32
Electronic data interchange, no Real Time Router	01/03/11		0.99

2.2.2. Operator Charges:

2.2.2.1 Per Line set up charge for Operator exchange (Note 1)

A charge that equals the KCOM per line set up charge for digital exchange.

2.2.3 Operator Average Porting Conveyance

Effective Date	Until	Daytime	Evening	Weekend	Rate Status
01/03/11		0.1463	0.0670	0.0528	Final

These are the transit costs (pence per minute) of conveying calls received from an originating operator that are destined for a ported number on the recipient operator's network.

Notes:

- 1) Block transfer costs - analogue multiline - costs will be the same as if for a single line.
- 2) When the Director General determines the KCH charges for Number Portability (including Data Management Amendments for Number Portability), the Operator charge, with effect from the date from which the determination of such charges applies, shall be adjusted by the Operator and the Operator shall, for the period during which the determined charge applies, calculate any sum overpaid and underpaid in respect of such service using the new charge and calculate the interest for any sums overpaid or underpaid in accordance with the Ofcom Interest Rate.
