

## Pick and Mix 2 – Broadband Packages

### Introduction & summary

Our broadband products combine with our KCOM Phone-only Service to provide individually tailored home phone and broadband services. The telephone line to a customer's property will be activated from the start of service date, with no calls included as standard. Calls can either be made on a pay-as-you-go basis, or a Call Bolt-on can be added at any time.

[Click here for more information about our Call Bolt-ons](#)

[Click here for more information about our Phone-Only service](#)

### Service description

#### Standard broadband

Using the copper lines that deliver your phone service, KCOM provides internet access using ADSL technology. Connection speeds can vary on this service, depending on a number of factors, including the distance of the property from the telephone exchange it's connected to. To find out the speeds for your property, [click here](#).

#### Fibre broadband

Wherever possible, KCOM use Fibre to the Premises (FTTP) technology, to enable customers to enjoy the best possible broadband speeds and improved reliability. By connecting customers to a full-fibre (FTTP) or part-fibre (FTTC) network, KCOM customers have access to an improved internet service with a more reliable connection and faster speeds than standard broadband.

There are two types of fibre services that KCOM use:

- **Fibre to the Premises (FTTP) – sometimes known as Fibre to the Home (FTTH):** This connects the customer's home to the telephone exchange by fibre cabling, meaning speeds are not affected by distance from the exchange
- **Fibre to the Cabinet (FTTC) – sometimes called VDSL:** This is where fibre is connected to the nearest distribution cabinet, and the customer's home is connected to the cabinet using a copper line. This means that the speed is affected by distance from the property from the cabinet.

### Pricing & payments

All prices below are inclusive of VAT, unless otherwise stated. Additional costs apply for customers that choose not to pay by Direct Debit, and those that opt for paper billing. For these associated costs, please see the Service Details section of this document. Paying by Direct Debit and having online billing can save customers up to £2.50 a month, as well as providing the convenience of being able to check your account and track usage if you're on a limited-allowance package.

Any data used in excess of your allowance is rounded up to the next whole Gb and charged according to the rate detailed below.

## Contract term

The standard contract term for these packages is 18 months. If a service is ended before the agreed contract term has expired, early termination fees will apply – please see the Service Details section of this document.

## Installation

Installation of KCOM broadband or Lightstream to a customer's property may be subject to an installation fee – details of these can be found under the package profiles in the **Service details** section of this document.

## Equipment and installation services

Unless otherwise stated, the cost of your KCOM broadband activation charge will include the equipment and installation shown below. Activation costs can be found in the **Service Details** section of this document.

KCOM Service	Equipment provided	Installation service
Standard ADSL broadband	<ul style="list-style-type: none"> <li>Wireless broadband router</li> </ul>	<ul style="list-style-type: none"> <li>Router posted to service address (£6.49 delivery) – customer to self-install</li> </ul>
FTTC (VDSL) Lightstream	<ul style="list-style-type: none"> <li>Wireless broadband router</li> </ul>	<ul style="list-style-type: none"> <li>Engineer visits property to install router (appointment required)</li> </ul>
FTTP Lightstream	<ul style="list-style-type: none"> <li>Wireless broadband router</li> <li>Internal fibre box (ONT)</li> <li>External fibre connection unit (CTU)</li> </ul>	<ul style="list-style-type: none"> <li>CTU installed to exterior of property (<b>no appointment required</b>)</li> <li>Engineer visits property to install ONT and router (<b>appointment required</b>)</li> </ul>
VOIP Lightstream (phone and broadband delivered over fibre)	<ul style="list-style-type: none"> <li>Wireless broadband router</li> <li>Optical Network Terminal (ONT) – internal</li> <li>Customer Termination Unit (CTU) – external</li> <li>Master phone socket (NTE) connected to the ONT to provide telephone service</li> <li>Battery Back Unit (BBU) for phone service</li> <li>'If you are taking service outside KCOM's original licensed network geographical area listed below, we will only provide a battery back-up unit if you do not have the ability to make calls from a mobile phone in the event of a power failure, you have poor mobile phone coverage or you are deemed at risk or vulnerable.'</li> </ul>	<ul style="list-style-type: none"> <li>CTU installed to exterior of property (<b>no appointment required</b>)</li> <li>Engineer visits property to install ONT, router, NTE and BBU (<b>appointment required if BBU needed</b>)</li> </ul>

	<ul style="list-style-type: none"> <li>• Areas outside of KCOM's original licensed network geographical area:             <ul style="list-style-type: none"> <li>• • Driffield</li> <li>• • Nafferton</li> <li>• • Market Weighton</li> <li>• • Pocklington</li> <li>• • Howden</li> <li>• • Goole</li> <li>• • Selby</li> <li>• • Barton Upon Humber</li> <li>• • Goxhull</li> <li>• • Brigg</li> <li>• • Broughton</li> <li>• • Scawby</li> <li>• • Hibaldstow</li> <li>• • Kirton in Linsey</li> <li>• • Epworth</li> <li>• • Haxey</li> <li>• • Crowle</li> <li>• • Messingham</li> <li>• • Bridlington</li> <li>• • Hornsea</li> <li>• • Withernsea</li> </ul> </li> </ul>	
--	---	--

If we provide a router for you to use with the service on or after 1st August 2019, the following conditions will apply;

- We will retain ownership of the router at all times.
- We will provide a lifetime warranty on any router we supply to you to use with the service. This means that we will repair or replace the router if it becomes faulty during the period you are taking the service from us. However, any deliberate or accidental damage to the router will not be covered. We will not be responsible for repairing faults on routers we have not supplied.
- When you terminate your broadband service with us, you must return the router we have supplied to us or (if we choose) make it available for collection in a reasonable condition, allowing for fair wear and tear.
- If you do not return the router we may charge you up to £50 for non-return. This will be shown on your final bill with KCOM.
