### Changes

Extension of scope to include Wholesale FibreLine Local Access Services.

On 28 October 2021 Ofcom published a statement confirming obligations applying to KCOM from 1 November 2021 in respect of the provision of various wholesale services. As required by Ofcom, KCOM is working to develop and launch:

- a revised Wholesale FibreLine Local Access (WFLLA) product, which will offer connectivity either in exchanges or to a CP point of presence anywhere in the Hull Area and
- a Dark Fibre Access product

These services will be made available from 1 May 2022 and 1 August 2022 respectively.

As an interim step and in order to meet customer requirements, on 11 February 2022 KCOM published a new Reference Offer for the Ancillary Services.

We are now amending this Reference Offer to allow for its use as a connectivity option for services provided pursuant to the Reference Offer for Wholesale FibreLine Local Access. From 1 May 2022, the Reference Offer for Accommodation Services will be withdrawn and WFLLA connectivity within KCOM Exchanges will be provided pursuant to the Reference Offer for Ancillary Services.
