

ACCESS CHARGE CHANGE NOTICE (ACCN)

ACCN reference information

ACCN Number: ACCN_2022_10

Scope: Build cost changes and Inclusion of Dark Fibre

Notification period: 56 Days

Services: Ancillary Services

Terms and conditions: Product terms and conditions are those applying to the wholesale Reference Offer for Ancillary Services

Effective date: 1 August 2022

Changes

- 1) Introduction of alternative accommodation construction charges

KCOM currently requires CPs to meet the full cost of construction works to build accommodation within its exchanges. From 1 August 2022, KCOM will provide designated space within its Kirkella and Civic exchanges for a fixed fee rather than charging the full cost of construction works.

This only applies to these two sites and does not apply at KCOM's other Next Generation Access exchanges.

Accommodation charge

Service	Operative Date	Fixed Charge
		Ex VAT
CP Equipment Room utilisation at Kirkella and Civic Exchanges per Space per Rack Unit (SRU)	01/08/22	£4,228.00
CP Equipment Room Works (Beverley, East, and Newland Exchanges)	01/03/22	POA

- 2) Extension of scope to include Dark Fibre

On 28 October 2021 Ofcom published a statement confirming obligations applying to KCOM from 1 November 2021 in respect of the provision of various wholesale services. As required by Ofcom, KCOM is working to develop and launch a Dark Fibre Access product.

This service will be made available from 1 August 2022.

On 11 February 2022 KCOM published a new Reference Offer for the Ancillary Services.

We are now amending this Reference Offer to allow for its use as a connectivity option for services provided pursuant to the Reference Offer for Dark Fibre, from 1 August 2022.

Amended contract documentation can be found at :
