## SERVICE STANDARDS – PART 3

### 1 INTRODUCTION

These Service Standards define the Services that We shall supply to You.

Any changes, modifications, additions or deletions to these Service Standards will be provided to You in writing 30 days prior to such change coming into effect.

### 2. CONNECT FIBRE BUSINESS COMPLETE SERVICES

#### 2.1. Service Description

The Services are Our ‘white label’ reseller product that We make available to Communications Providers (CPs) pursuant to this Agreement. The Services enable You to offer fibre broadband and analogue exchange line rental services direct to Your retail Customers and gives You control over sales, billing and first line support to Your Customers.

The technology We use to provide You with analogue exchange line rental services depends on where Your premises is situated and whether it is copper or fibre enabled.

The Services are available in the Hull Area. However, You acknowledge and agree that We are still in the process of deploying Our new fibre network in the Hull Area and that the Connection Charges payable by You for the Services will depend on whether a Customer address is located in an area where We have deployed Our fibre network or an area where We have not deployed Our fibre network. Notwithstanding whether We have deployed Our fibre network in a given area, any Orders for the Services that You place will qualify for a discount on the prices that We would otherwise charge Our direct customers.

The Services provide Your Customers with a superfast / ultrafast broadband service using fibre optics nearer to Your Customers’ premises to deliver faster broadband services than are normally available over copper based ADSL services.

One of two types of technology will be used to deliver the Services to Your Customers:

- Fibre to the Premises (FTTP) - a fibre installation directly to the Customer’s premises (speeds are not affected by distance from the network); or
- Very High Speed Digital Subscriber Line (VDSL) – where fibre is connected to the nearest distribution ‘cabinet’ and from there to Your Customer’s premises, using a copper line.

The maximum download and upload speeds the Services are capable of providing are detailed in Table 2 below.

#### 2.2. Service Bolt-Ons

The following Bolt-ons can be provided with Your Service for an additional charge, detailed in the Price Manual:

**Table 1: Service Bolt-Ons**

Bolt-On	Description	Initial Minimum Period
UK Landlines and Mobiles Bolt-On	Unlimited local and national calls, and unlimited landline to mobile minutes for that line, as described in Section 2.3 below.	30 days

address)*		Complete VDSL 75 UL/75 UL)**
IP Bolt-On (2-5 additional addresses)*		24 months (12 months for the Connect Fibre Business Complete VDSL 75 UL/75 UL)**

\* Please note existing customers upgrading to additional IP addresses may be required to change subnet and reconfigure current service set up and services. We reserve the right to remove or change any IP addresses assigned to You. All IP addresses are subject to RIPE approval.

\*\* If You have selected the IP Bolt-On after entering into this Agreement, then notwithstanding any part of the Initial Minimum Period for the IP Bolt-On remaining outstanding at the end of the Monthly Rental contract set out in the Price Manual, You may terminate the IP Bolt-On on or after the end of the Monthly Rental contract set out in the Price Manual by giving Us no less than 30 days' written notice.

You can select additional Bolt-Ons at any time by agreement with Us, using the ordering process detailed on Our website from time to time.

Subject to the double asterisked paragraph above, You can terminate Bolt-Ons after the expiry of the Initial Minimum Period by giving Us no less than 30 days' written notice. Terminating a Bolt-On in this way will not affect the continuation of other parts of this Contract.

### 2.3. UK Landlines and Mobiles Bolt-On Description

The UK Landlines and Mobiles Bolt-On includes unlimited UK landline and mobile calls.

You acknowledge and agree, and shall ensure Your End Users acknowledge and agree, that the UK Landlines and Mobiles Bolt-On is subject to the Fair Usage Policy. We reserve the right to take such action as We deem appropriate in the event of the Fair Usage Policy by the End Users and You accept any liability as a consequence of such breach by the End User.

Further information about this Bolt-On is available in the Price Manual.

### 2.4. Service Delivery Requirements

In order to deliver the Services, You acknowledge that the Customer must have:

- Ethernet LAN running TCP/IP (10 BASE T minimum). For LAN connections You must supply or ensure that the Customer supplies their own PC Ethernet cards; and
- an internet-ready device.

Where You require Us to supply a router for use with the Services, We provide a dual band router to wireless 2.4 and 5Ghz standards. To optimise the wireless speed Your Customer will require wireless AC adaptors or cards for their PC.

We would remind You that all Customers should consider the security of their PC. We recommend the use of current anti-virus software and firewall protection. Email anti-virus protection is provided with email Post Office Protocol ("POP") accounts. Where the Services are delivered using FTTP, Your Customers will require two functioning power sockets for the Optical Network Terminal (ONT) and the router. Where the Services are delivered using VDSL, Your Customers will require a single power socket for the VDSL router and a VDSL microfilter. See installation options below.

### 2.5. Installation of the Services

In respect of the installation of the Services We will provide You with the date of an engineer visit with either a morning (AM) or afternoon (PM) appointment for each Customer. Depending on how Services are being delivered, more than one engineer visit may be required. You are responsible for communicating this information to Your Customer.

Where We have made a scheduled appointment with You for either (i) the installation of the Services at a Customer's premises or (ii) the resolution of a fault with the Services at a Customer's premises, it is Your responsibility to inform Your Customer of the date and time of the appointment. You will be subject to a Missed Appointment Charge as set out in the Price Manual if one of Our engineers has

# RESELLER AGREEMENT FOR CONNECT FIBRE BUSINESS COMPLETE

been dispatched to a Customer address and:

- The appointment is cancelled by You and/or Your Customer after the engineer has been dispatched;
- The person in attendance at the Customer's premises is under the age of 18;
- There is no one at the Customer's premises;
- There is no one at the Customer's premises who knows what work is required or who is otherwise authorised to agree it;
- You and/or Your Customer ask Our engineer to call back at an alternative time;
- Our engineer is refused entry to the Customer's premises;
- There are no suitable or there are insufficient power sockets.

Where You do not purchase a router from Us, We shall ensure that the Services are successfully delivered to the ONT that We will install at the Customer's premises. You acknowledge and agree that in order for the Customer to be able to use the Services, You will need to install and connect a router that is compatible with the Services to the ONT. Furthermore, You acknowledge and agree that the Customer will not have a working broadband service and will not have access to internet services until such time as You connect a router to the ONT installed at the Customer's premises.

## 2.6. Connection and Hardware Charges

The type of connection We will provide for the Services will be as stated in the Order form. Further details of the connections We provide are as follows:

- Connection 50 metres: ONT only or ONT and router located together within 48 metres (usable of fibre length) of entrance;
- Cat5e Connection: Dual Ethernet socket and cable to 100 metres (90 metres usable) when You instruct Us that a Customer's router needs to be located next to the Customer's PCs;
- Migrations from Connect Broadband Fibre Business (same CP): You may migrate services from Connect Broadband Fibre Business to Connect Fibre Business Complete; and
- Migrations from Connect Broadband Fibre Business / Connect Fibre Business Complete / Retail Lightstream: You may migrate services from these products to Connect Fibre Business Complete (different CP).

The Connection and Hardware Charges that apply in respect of an Order for Services will be as stated in the Price Manual and the Order form.

## 2.7. Service Features

The service features for the relevant Service will be as stated in Table 2 below and in the Price Manual as applicable. Where any of these details are varied in the Price Manual, the up to date details published in the Price Manual will apply.

## 3. EQUIPMENT

### 3.1. Equipment supplied by Us

Where We provide a Maintained Service, We will provide a router directly to Your Customer, which Your Customer will use with the Services, You acknowledge that where We supply a router in accordance with this Section 3.1, such router shall remain Our property. If the Services are cancelled and/or terminated (with the exception of the cancellation or termination of an individual Bolt-On) You must ensure that the Customer allows Us access to the Customer's premises to collect the router, if required. You must not, and You must ensure that Your Customer does not remove the ONT from the Customer's premises at any time notwithstanding whether the Agreement has been cancelled or terminated or not.

You must ensure that Your Customers take reasonable care of the ONT and any router that We provide whilst such equipment is at the Customer premises and, in particular, that such equipment is protected from accidental damage and theft. In addition, You must and must ensure that Your Customers do not allow anyone other than Us to carry out any repairs or maintenance work on the router and the ONT.

You will be responsible for the cost of repair or replacement of the ONT and/or any router supplied by Us pursuant to this Section 3.1 if either the ONT and/or the router is lost or damaged as a result of accidental damage or where You and/or Your Customer fails to take proper care of the same. However, We will be responsible for any problems You and/or Your Customer experience with the use of the ONT and/or the router where such problems are attributed to any defects with the materials or manufacture of the same. We will repair or replace any defective ONT and/or router provided as part of any Maintained Service free of charge with new or as new equipment of similar specification to the equipment being replaced.

**3.2.** If You opt for Our Maintained Service, then the cost of the router is included and this will be subject to warranty. If You and/or Your Customer require a replacement router, the ownership of the replacement router shall remain Our property. You will be entitled to a replacement router if You experience any problems with the router, if such problems can be attributed to any defects with the materials or manufacture of the router.

### 3.3. Purchased and Replacement Router

If You are required to purchase a router to use with the Service from Us or are required to purchase a replacement router after the initial 12 months' service, the ownership of the router shall be Yours once You have paid for the router in full. We will assign the benefit of any product warranties given by the manufacturer or supplier of the router to You; and You shall be entitled to a replacement router if You experience any problems with the router, during the initial 12 month period following on from the date on which We supply the router to You, if such problems can be attributed to any defects with the materials or manufacture of the router.

## 4. THROUGHPUT SPEEDS

**4.1.** The throughput speeds for the Services are as set out in Table 2 above. For our VDSL Services, the throughput speed You actually receive will be dependent on a number of factors including the quality of the line and the distance from the exchange.

**4.2.** For further information regarding throughput Speeds or the actual throughput speed that Your Customers will receive, please contact The Wholesale Provisioning Team.

## 5. IP ADDRESSES

We will supply one static IP Address. Any additional IP Addresses shall be provided strictly in accordance with the terms of either the IP Bolt-On (1 additional address) or the IP Bolt-On (2-5 additional addresses). For the avoidance of doubt, neither You or any Customer shall obtain ownership of any IP Addresses unless such IP Addresses are provided by You or Your Customers.

## 6. FAULT REPORTING

For the avoidance of doubt, You must provide first line support to the Customer.

# RESELLER AGREEMENT FOR CONNECT FIBRE BUSINESS COMPLETE

- Details of the Services provided to the Customer
- Contact names and relevant security details
- The nature of the fault.

## 6.1. Faults Procedure

The following processes outline Our faults procedure:

1. You contact the Business Technical Support Helpdesk to report a fault on the appropriate telephone number You have been given.
2. The Business Technical Support Helpdesk will log details of the fault on Our faults system and issue You with a unique Fault Reference Number.
3. The fault is diagnosed and if a Service engineer is required to carry out a Customer site visit this will be arranged with You.
4. The fault is resolved and passed back to the Business Technical Support Helpdesk to confirm the Service has been restored to close.

## 6.2. Our Obligations

The Time to Resolve Faults (TTRF) obligations for faults are shown in Table 2 above.

## 6.3. Restrictions

We will not be responsible for rectifying any fault which is caused by:

1. Your fault or negligence or the fault or negligence of Your Customer (including without limitation where You or Your Customer have attempted to affect repairs to any Equipment or the Service unless such repairs have been expressly approved by Us);
2. The fault or negligence of another Network Operator;
3. Any failure by You to carry out Your obligations under this Agreement;
4. The connection of any Equipment supplied by Us to any other telecommunications networks or to any Customer Equipment, including any building distribution wiring, not approved by Us; or
5. The use of any Customer Equipment or any other Equipment or software not supplied by Us.

You may request Us to rectify any faults caused by circumstances described in paragraphs 1 to 5 (above) but We reserve the right to charge You for such services at our standard rates in force from time to time. Further to the above, We reserve the right to charge You Our standard Missed Appointment Charge as set out in the Price Manual whenever:

1. One of Our engineers attends an incorrect Customer address as provided by You;
2. You have not complied with any of the requirements set out in this Service Standard;
3. Entry is refused to any Customer premises or no access can be gained at the appointed time, as agreed between the parties;

# RESELLER AGREEMENT FOR CONNECT FIBRE BUSINESS COMPLETE

4. One of Our engineers attends a Customer's premises and discovers that the fault is not caused by the KCOM Equipment or Our Services; or
5. You report a fault which cannot be verified or confirmed by Us.

## 6.4. TTRF

The TTRF period shall begin once You notify the Business Technical Support Helpdesk of the fault and this being logged as a fault and a Fault Reference Number being allocated.

The TTRF period shall cease upon notice to You by the Business Technical Support Helpdesk of fault resolution. We will record the duration of the TTRF period for all faults.

The TTRF shall not apply in respect of Customer Responsible Faults, Planned Outages, Third Party Attributable Faults or any events of Force Majeure.

## 6.5. Faults Logged by Us

We may raise faults against alarms on the KCOM Network. If a fault affects the Services then We will use reasonable endeavours to promptly inform the named contact(s). If You wish to change these arrangements You must contact one of Our representatives.

The start time of a fault is the time it is detected by Us. We will allocate a Fault Reference Number.

## 6.6. Fault Reference Numbers

When You report a fault, the Business Technical Support Helpdesk will give You a unique Fault Reference Number. You must quote this number in subsequent communications.

## 6.7. Progress Reports

We will contact you if We have any relevant updates or when the fault is cleared. You may request additional updates at any time by contacting the Business Technical Support Helpdesk on your usual Support telephone number 0800 702 2000 and quote your Fault Reference Number.

## 6.8. Confirmation of Fault Clearance

We will contact You as soon as possible and not more than 15 (fifteen) minutes after notification from Our engineering staff that Service has been restored. In the event You contact Us to report that the fault has disappeared or been traced to a third party's infrastructure, We will cancel processes in action.

## 6.9. Faults Not Involving KCOM Network

If the fault cannot be traced to Our Services, the KCOM Network or equipment supplied by Us, and appears to be a problem with resources or equipment for which We are not responsible, We will provide You with a report of tests that have been carried out and an explanation of how the fault was traced. This report will be supplied in writing to You if requested.

## 6.10. Fault Escalation

Fault escalation procedures can be invoked in the following situations:

- If a reported fault exceeds the TTRF
- Where an individual fault condition is particularly sensitive and is deemed to be business affecting and a quicker resolution may be necessary.

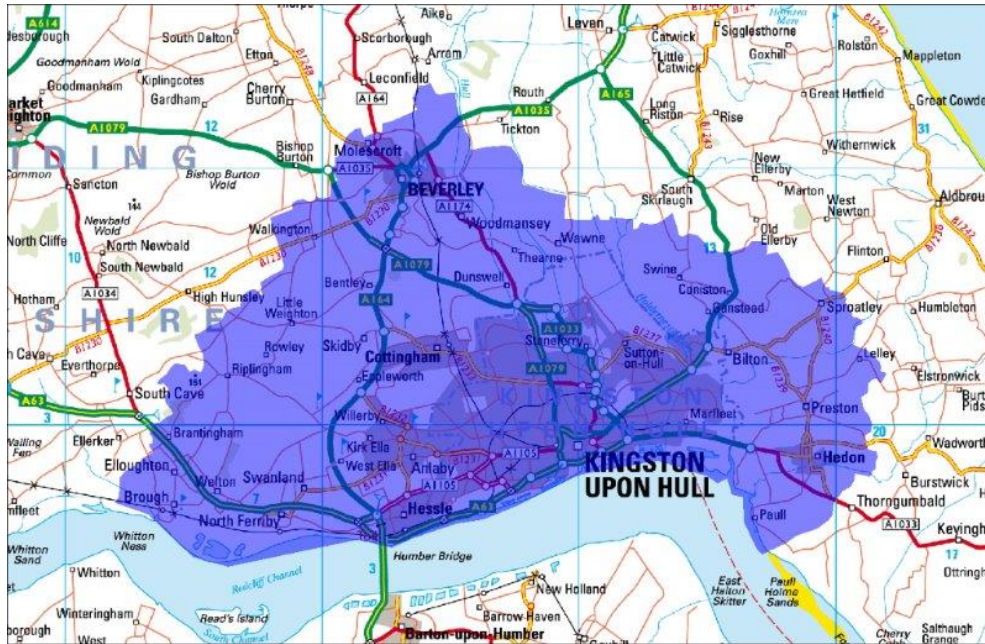

You may at any time during the fault request immediate escalation. Escalation may be via the appropriate KCOM Group contact or on a direct peer to peer level. All requests are to clearly state the reason for escalation and any subsequent actions will be recorded on Our fault management system. We will use our best endeavours to respond as promptly and quickly as possible.

### STANDARD TERMS AND CONDITIONS - PART 4

#### 1 TERM

1.1 This Agreement shall come into effect on the Commencement Date and, subject to the provisions for earlier termination, shall continue until such time as all Orders placed under this Agreement have expired and/or been terminated.

1.2 Each Order shall commence on its Service Start Date and continue until the expiry of its Initial Term. Following the expiry of the Initial Term, the Order will continue unless and until terminated by either party giving the other no less than 30 days' prior written notice.

#### 2 SUPPLY OF EQUIPMENT

2.1 You may request a quotation for Equipment from Us at any time. Where You notify Us that You wish to proceed on the basis of that quotation, the terms and conditions in this Agreement shall apply to the exclusion of any other terms and conditions, for example, but not limited to, those contained within an Order form.

2.2 In the event that You purchase Equipment from Us, legal and beneficial ownership of the Equipment shall not pass to You unless and until cleared payment for the Equipment has been received by Us in full.

2.3 Unless and until We have received all amounts due, We shall be entitled to:

- (a) require any Equipment to be separately stored and clearly marked in such a way that they will be readily identified by Us;
- (b) require You to deliver up the Equipment or any part of it to Us, and if You fail to do so forthwith, to repossess it; and/or
- (c) enter Your premises or Your Customers' premises where goods still owned by Us are stored or reasonably thought to be stored in order to inspect and/or repossess the same. All the costs and expenses reasonably incurred by Us in connection with such inspection and/or recovery shall be borne by You.

2.5 You shall use reasonable endeavours to ensure that the terms and conditions of Your contracts with Your Customers reflect the terms of clauses 2.3 and 2.4 so as to give effect to those clauses.

2.6 Risk in the Equipment shall pass to You on delivery; or if You fail to take delivery, at the time when delivery is tendered by Us.

2.7 We may invoice You for the Equipment charges at any time following delivery. Payment for each Order will be payable in full without set off or withholding of any kind within 30 days of the date of invoice. 3.1 Provision of the Service is subject to availability and Our survey of the Customer Site. We shall use reasonable endeavours to provide the Services in accordance with this Agreement and will use reasonable skill and care in the provision of the same. However, You acknowledge that the Services cannot be provided fault free and We do not warrant error free or uninterrupted use of the Services. We

will use Our reasonable endeavours to repair any faults in accordance with the Service Standards.

3.2 We shall use reasonable endeavours to make each Service available for use by You from its Proposed Start Date provided the Proposed Start Date allows for Our standard lead time for the Service, as detailed in the Service Standard, and unless We are unable to do so as the result of; (a) a failure by You to fulfil Your obligations under this Agreement (including the correct completion of the Order form); (b) any delay caused by a nominated third party (including, without limitation, other Network Operators); (c) delays caused by planning permission and/or OFCOM approvals that may be required and/or (d) any technical issues that may arise during installation.

3.3 You acknowledge that:

- (a) some technical limitations within the Our network may not become apparent until after the Service has been installed and working for some time. In such instances, We may terminate that Order on notice to You. In such circumstances, We will notify You of any alternative services We can provide to You, if any; and
- (b) where We are supplying a Service (VDSL), following activation of Your Service (VDSL) the Customer may suffer a temporary loss of telephone service. This will be reinstated following installation as soon as reasonably possible.

Up until the point that title passes, the Equipment will be KCOM Equipment for the purposes of this Agreement. Following the passing of title, such Equipment will be Customer Equipment for the purposes of this Agreement. We will use Our best endeavours to pass onto You the benefit of any manufacturer's warranty for any such Equipment.

3.6 If You purchase Our Maintained Service, We shall supply You with a router and any other agreed Equipment for use with the Service. Title to the router and such Equipment shall remain with Us and it will be KCOM Equipment for the purposes of this Agreement.

3.7 You acknowledge that in respect of certain Services, We may implement an additional element to the Service, which will:

- (a) scan all incoming and outgoing emails for viruses. If We detect a virus, We will not deliver the infected email and/or
- (b) scan all incoming emails to see if they are unsolicited bulk commercial emails ("Spam"). If We detect a spam email, We will deliver it to a separate folder, which the Customer may access using their password. Spam emails will be deleted from this folder after 30 days. If the Customer chooses to have Spam emails delivered straight into their inbox, We will identify them as being Spam.

3.8 If the Customer uses the Service to send or receive emails, We reserve the right to delete any unread emails two months after receipt.

3.9 Without prejudice to the provisions of clause 3.12 You acknowledge that We may from time to time make changes to the Service Standards. Such changes will be notified to You not less than 30 days prior to their taking effect. You may at any time during this Agreement, terminate this Agreement on 30 days prior written notice, if any change in the Service Standard made by Us can be shown to be detrimental to You.

3.10 We do not guarantee the continuous availability of any particular Service and You acknowledge that We may be dependent upon third parties (including, without limitation, other Network Operators) when providing the Service. Notwithstanding any other

provisions of this Agreement, but subject to clause 22.1, We will not be liable to You in contract, tort (including negligence) or otherwise for the actions of any third party (including, without limitation, acts or omissions of the other Network Operators) that affect or otherwise impact upon the provision of the Service.

3.11 You must obtain the necessary consents from Your Customers (at Your own expense) in order for Your Customers to receive the Service in advance of installation, including but not limited to consents to building alterations at the Customer Site(s) and any landlord or neighbour's permissions to enable Us, or Our subcontractors to install or maintain the Equipment. In the event that either party is not able to procure any necessary consent(s) to provide the Services within 3 months of the Proposed Start Date of an Order, We will be able to terminate that Order without any liability to You. You must ensure your Customers provide an appropriate environment for the installation of the Equipment in accordance with any requirements advised to You in advance.

3.12 We shall be entitled to:

- (a) change the technical specification of the Services where necessary for operational reasons, subject to such change not materially adversely affecting the performance of the Service (except where it is reasonable to do so);
- (b) suspend the Services for operational or technical reasons or in case of emergency; and
- (c) give You instructions which We believe to be necessary for health and safety reasons or for maintaining the quality of the Services.

but before doing any of these things, We will give You as much notice as possible.

This ancillary battery back-up unit also utilises a mains power supply to maintain its charging cycle. It must therefore remain connected to a mains power supply which must be switched on at all times.
- 8.7 For the avoidance of doubt, You acknowledge that that failing to keep the battery back-up unit in good working order and fully charged places Your Customer(s) at risk of not being able to make emergency calls.

The documentation must be in accordance with the policies set forth by RIPE. In certain circumstances, it may be necessary for TCP/IP addresses to be approved by RIPE, and in such cases those addresses are only assigned for the duration of the Service and become invalid at such time as We no longer provides the Service to You. We shall not be responsible for any decision made by RIPE. When We assign addresses to You for use by Your Customers, a temporary extension (usually thirty (30) days after the end of the Service) may be granted at Our sole discretion. Following termination or any further period (if any), those TCP/IP addresses may be reassigned by Us. All recurring Charges will be invoiced monthly in advance during the first week of the month to which the Charges relate. Unless We agree otherwise in writing with You, recurring Charges will be collected in full by direct debit by the end of the month to which they relate. We reserve the right to charge daily interest on any outstanding amounts until payment is received in full at a rate equal to 2% per annum above the base lending rate of the National Westminster Bank Plc as current from time to time whether before or after judgment until the date payment is received and/or suspend the Service (whether in whole or in part) until all such Charges have been paid in full. All Charges for any month shall be paid in full, even where a Customer Order terminates part way through any month to which the Charges relate.
- 16.10 You agree that We may invoice for any call made under this Agreement at any time up to 3 months following the date on which the call was made or the charge was incurred. “**Permitted Sub-Processor**” means any third party supplier or other sub-processor appointed by Us for the provision of Services to the Reseller pursuant to the Agreement, as such third party supplier or sub-processor is expressly identified to the Reseller or as otherwise agreed between the parties.

2.1 Both Parties hereby warrant, represent and agree that in relation to the performance of the Services during the term of the Agreement each Party will comply with the Data Protection Laws.

2.2 Both Parties acknowledge and agree that in relation to the Personal Data, the End User is the Data Controller, the Reseller is the Data Processor and We are a Sub-Processor. We agree and accept that We will process the Personal Data pursuant to and in accordance with the Agreement, as applicable, and the Data Protection Laws.
